

## Plan for Selection of Tenure Track Assistant Professors

# Tenure Track Assistant Professor Selection Standards

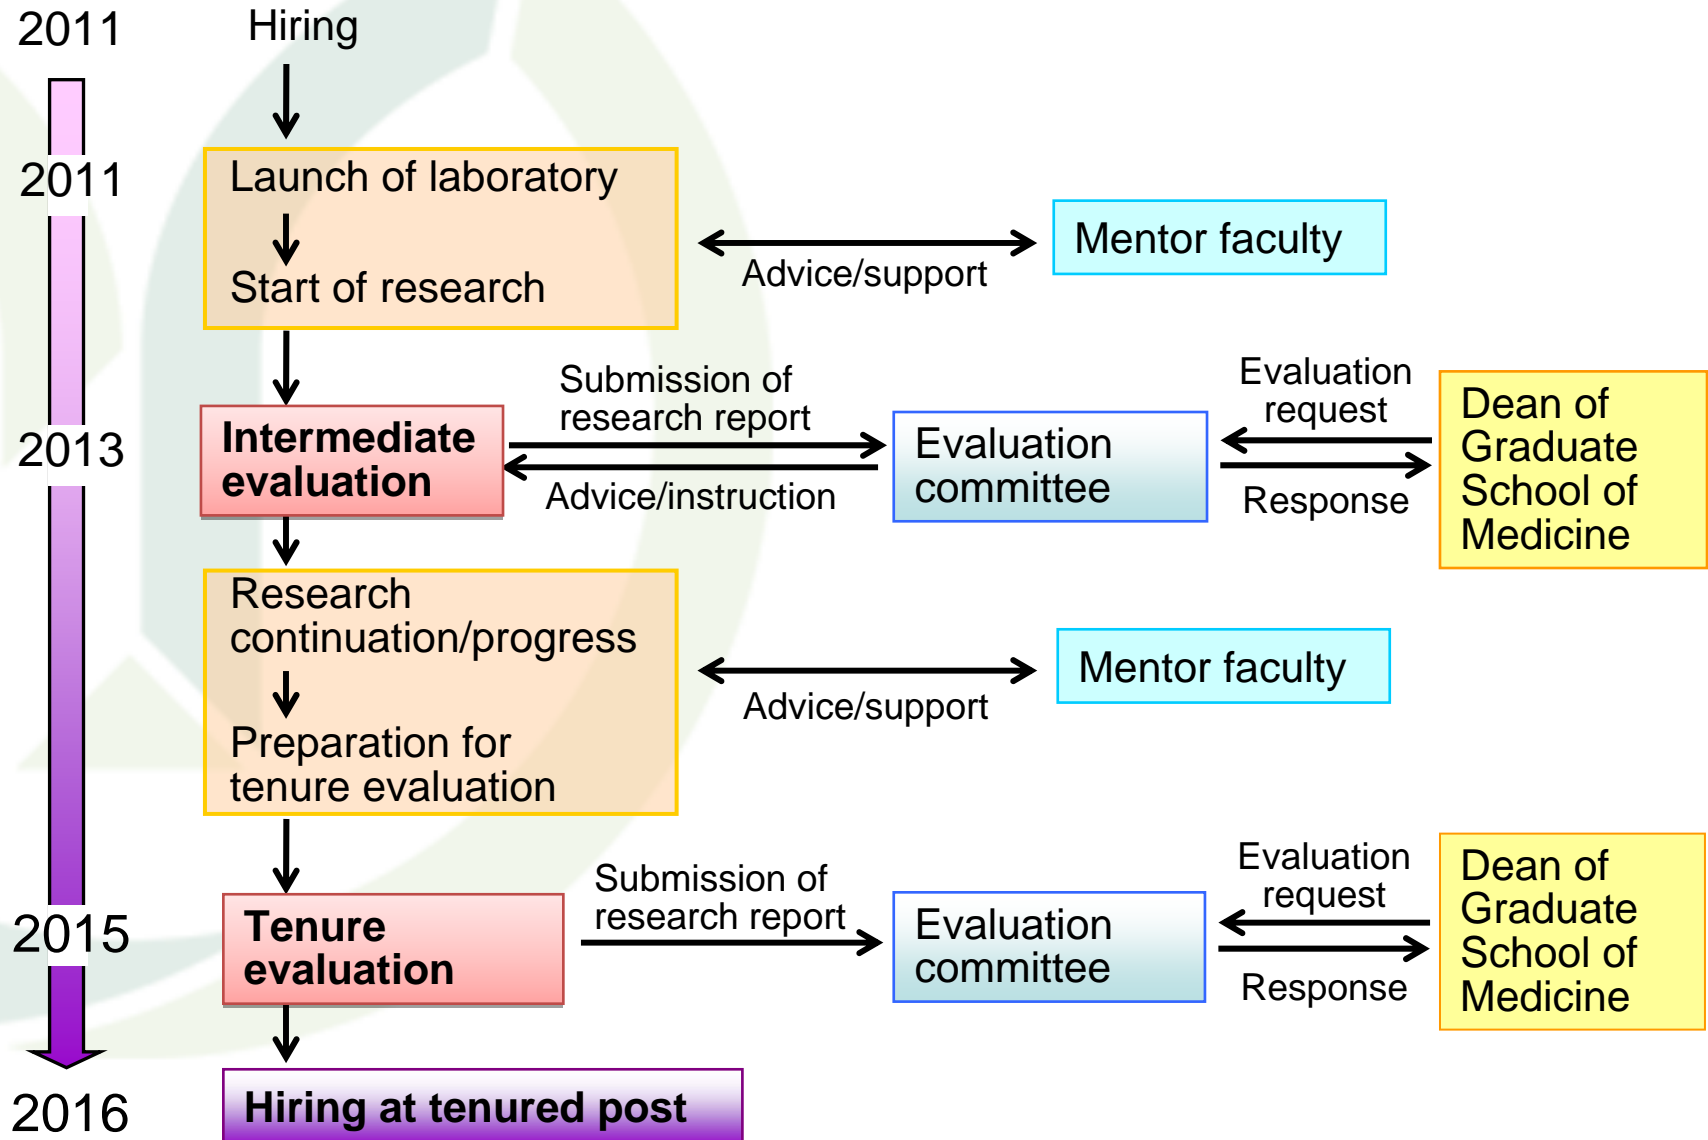

**Selection of young researchers with future potential and international abilities who can conduct research as independent PI**

**Tenure Track Assistant  
Professor Selection Committee**

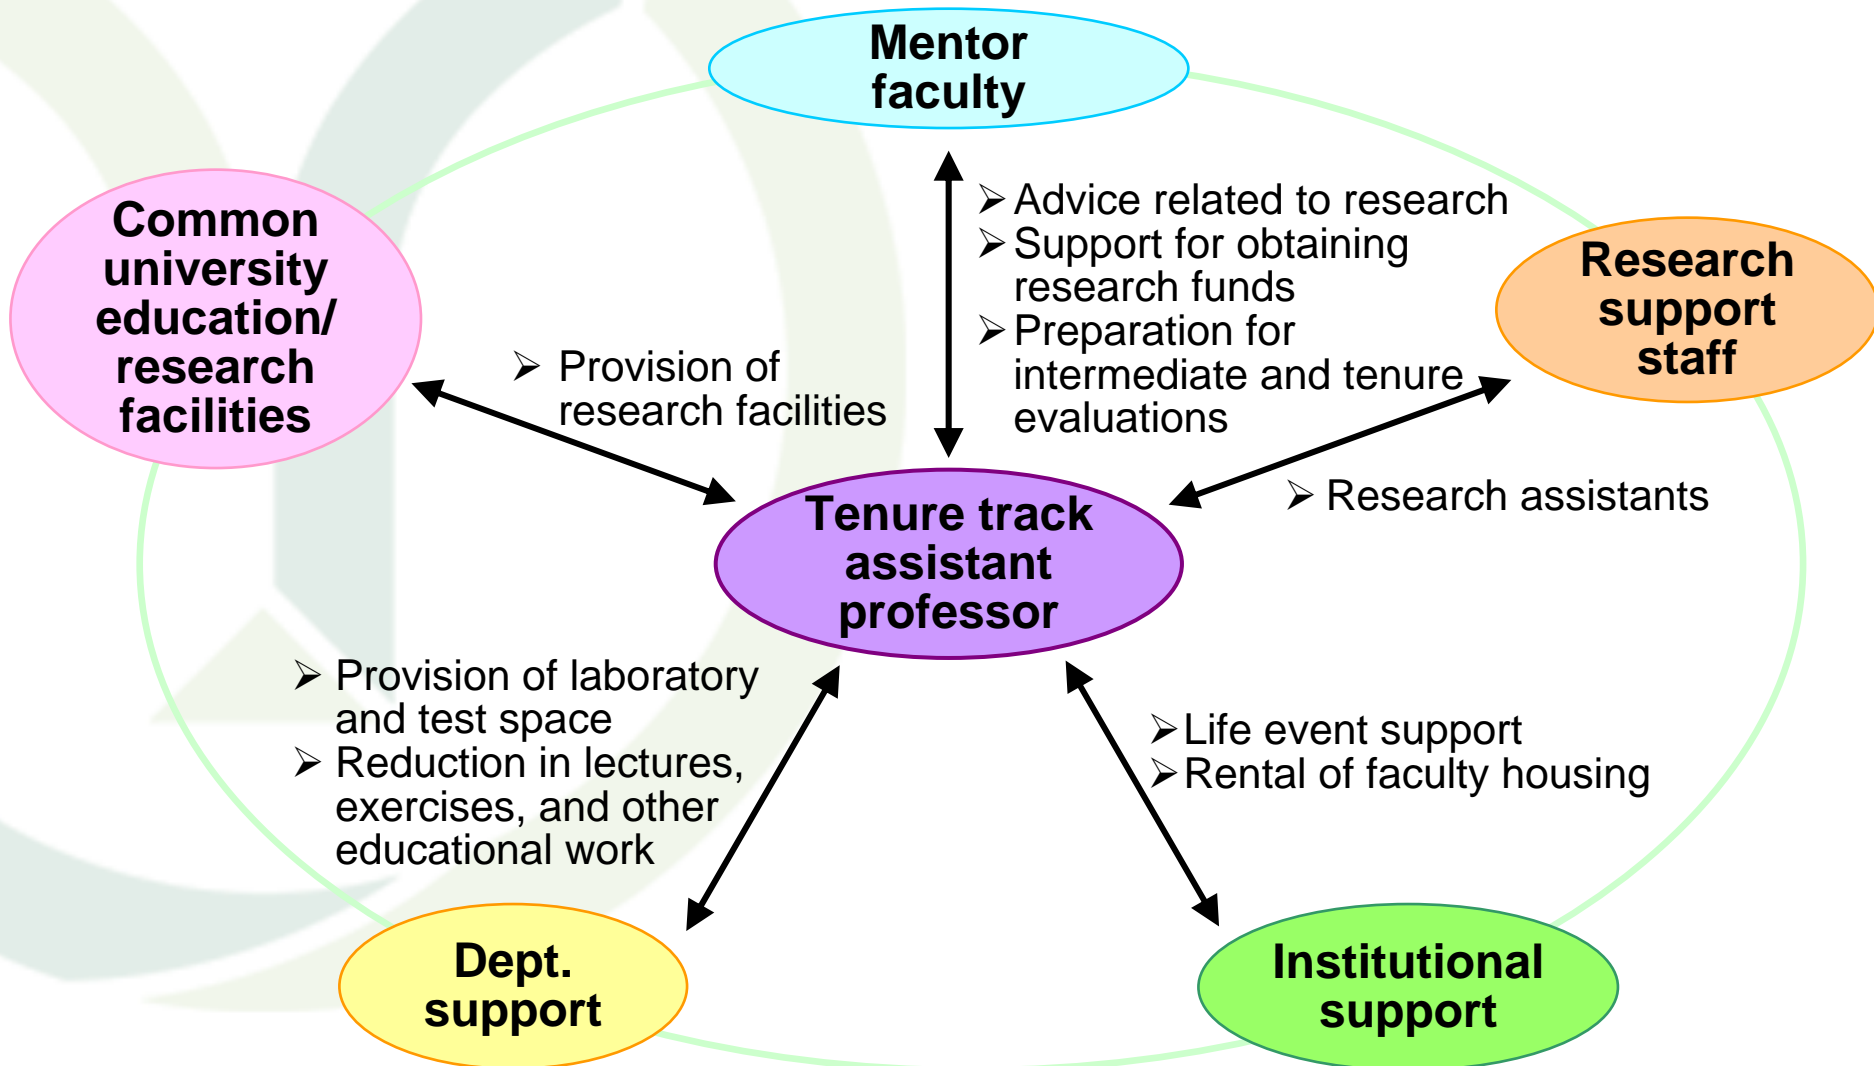

**Peer review**

- 1. Judging from past results from original research areas and research subjects, does the candidate have the ability to conduct independent research activities?**
- 2. Does the candidate have the abilities and potential as an advanced medical research academic engaged in preeminent fundamental and clinical medical research?**
- 3. Conditions of acquiring competitive funding (including scholarships)**
- 4. Record of lectures and presentations at domestic and international conferences**
- 5. Experience in international collaborations**
- 6. Other teaching experience, record of student instruction, student activities, etc.**
